SUBJECT INDEX

^{13}C-octanic acid breath test for detection of effects of meal composition on the rate of solid-phase gastric emptying in ponies, The 81

Activin-A differentially regulates steroidogenesis by sheep granulosa cells 23
Aflatoxicosis in Japanese quail (*Coturnix coturnix japonica*) by dietary addition of yeast (*Saccharomyces cerevisiae*), Biological suppression of 207
Aflatoxicosis, Ameliorative effects of dietary clinoptilolite on pathological changes in broiler chickens during 59
Ameliorative effects of dietary clinoptilolite on pathological changes in broiler chickens during aflatoxicosis 59
Amplification of the 16S-23S rDNA spacer region for rapid detection of *Clostridium chauvoei* and *Clostridium septicum* (SC) 227
Antibacterial activity of raspberry cordial in vitro 155
Ascorbic acid concentrations in healthy dogs, Plasma 33
Ascorbic acid, Pharmacokinetics in dogs after oral administration of two different forms of 27
Atopic dermatitis, Characterisation of major and minor *Dermatophagoides* allergens in canine 51

Badger (*meles meles*), ADNA vaccine encoding MPB83 from *Mycobacterium bovis* reduces *M bovis* dissemination to the kidneys of mice and is expressed in primary cell cultures of the European 119
Bethanechol on canine urinary bladder smooth muscle function, Effects of 175
Biochemical markers of bone metabolism in growing thoroughbreds: a longitudinal study 57
Biological suppression of aflatoxicosis in Japanese quail (*Coturnix coturnix japonica*) by dietary addition of yeast (*Saccharomyces cerevisiae*) 207
Bone metabolism in growing thoroughbreds: a longitudinal study, Biochemical markers of 57
Boron supplementation of adequate and inadequate vitamin D_3-containing diet on performance and serum biochemical characters of broiler chickens, Effects of 183
Bronchopneumonia in dogs, Specific enzyme activities in bronchoalveolar lavage fluid as an aid to diagnosis of tracheobronchitis and 141

Caliciviruses isolated from the oral cavity of clinically normal domestic cats (*Felis catus*) in Florida, Sequence analysis of feline (SC) 223
Characterisation of cross-reactivity of virus neutralising antibodies induced by feline panleukopenia virus and canine parvoviruses (SC) 219
Characterisation of major and minor *Dermatophagoides* allergens in canine atopic dermatitis 51
Characterization of interdigital glands in the Asian elephant (*Elephas maximus*) 197
Ciprofloxacin and its metabolites in broiler chickens, Pharmacokinetics and residues of 101
Clenbuterol, Morphological and quantitative study of the Leydig cells of pigs fed with anabolic doses of 85
Clinoptilolite on pathological changes in broiler chickens during aflatoxicosis, Ameliorative effects of dietary 59
Clostridium chauvoei and *Clostridium septicum*, Amplification of the 16S-23S rDNA spacer region for rapid detection of (SC) 227
Clostridium septicum, Amplification of the 16S-23S rDNA spacer region for rapid detection of *Clostridium chauvoei* and (SC) 227
Comparison of foal and adult horse neutrophil function using flow cytometric techniques, A 73

Dermatophagoides allergens in canine atopic dermatitis, Characterisation of major and minor 51
Disease resistance, The sustainability, feasibility and desirability of breeding livestock for 1
DNA vaccine encoding MPB83 from *Mycobacterium bovis* reduces *M bovis* dissemination to the kidneys of mice and is expressed in primary cell cultures of the European badger (*meles meles*), A 119

Effects of anti-inflammatory steroid drugs on pain coping behaviours in a model of articular pain in the domestic fowl 161
Effects of bethanechol on canine urinary bladder smooth muscle function 175
Effects of boron supplementation of adequate and inadequate vitamin D_3-containing diet on performance and serum biochemical characters of broiler chickens 183
Effects of nitric oxide donor and nitric oxide synthase inhibitor on ruminal contractions in conscious sheep 189
Effects of zinc and vitamin A supplements on plasma levels of thyroid hormones, cholesterol, glucose and egg yolk cholesterol of laying hens 135
Eimerian oocysts at very low concentrations in aqueous suspensions, A novel method for counting 67
Elephant (*Elephas maximus*), Characterization of interdigital glands in the Asian 197
Equine herpesvirus tupe 2 infection on monocyte chemoattractant protein 1 gene transcription in equine blood mononuclear cells, Influence of 111

Fibrinogen measurement in the horse: comparison of Millar's technique with a chronometric technique and the QBC-Vet Autoreader ^{TM}, Plasma 213
Flow cytometric techniques, A comparison of foal and adult horse neutrophil function using 73

Gastric emptying in ponies, The ^{13}C-octanic acid breath test for detection of effects of meal composition on the rate of solid-phase 81
Genetic typing of ruminant pestvirus strains from Northern Ireland and the Republic of Ireland 127
Glycosylated haemoglobin in gogs: study of critical difference value 115

IGF-I plasma concentrations in non-treated horses and horses administered with methionyl equine somatotropin 167
Immune response following intranasal and subcutaneous immunisation of calves, Kinetics and type of 9
Influence of equine herpesvirus tupe 2 infection on monocyte chemoattractant protein 1 gene transcription in equine blood mononuclear cells 111
Interdigital glands in the Asian elephant (*Elephas maximus*), Characterization of 197
Intestinal permeability testing using lactulose and rhamnose: a comparison between clinically normal cats and dogs and between dogs of different breeds 45

Kinematic characteristics of Andalusian, Arabian and Anglo-Arabian horses: a comparative study 147

Kinetics and type of immune response following intranasal and subcutaneous immunisation of calves 9

Lactulose and rhamnose: a comparison between clinically normal cats and dogs and between dogs of different breeds, Intestinal permeability testing using 45
Large intestine and flow of digesta in pigs, Motility of the 92
Leydig cells of pigs fed with anabolic doses of clenbuterol, Morphological and quantitative study of the 85

Meal composition on the rate of solid-phase gastric emptying in ponies, The ^{13}C-octanic acid breath test for detection of effects of 81
Methionyl equine somatotropin, IGF-I plasma concentrations in non-treated horses and horses administered with 167
Morphological and quantitative study of the Leydig cells of pigs fed with anabolic doses of clenbuterol 85
Motility of the large intestine and flow of digesta in pigs 92
Mycobacterium bovis reduces *M bovis* dissemination to the kidneys of mice and is expressed in primary cell cultures of the European badger (*meles meles*), A DNA vaccine encoding MPB83 from 119

Navicular disease, Synovial fluid studies in 201
Neutrophil function using flow cytometric techniques, A comparison of foal and adult horse 73
Nitric oxide donor and nitric oxide synthase inhibitor on ruminal contractions in conscious sheep, Effects of 189
Novel method for counting eimerian oocysts at very low concentrations in aqueous suspensions, A 67

Pain coping behaviours in a model of articular pain in the domestic fowl, Effects of anti-inflammatory steroid drugs on 161
Panleukopenia virus and canine parvoviruses, Characterisation of cross-reactivity of virus neutralising antibodies induced by feline (SC) 219
Parvoviruses, Characterisation of cross-reactivity of virus neutralising antibodies induced by feline panleukopenia virus and canine (SC) 219
Pestvirus strains from Northern Ireland and the Republic of Ireland, Genetic typing of ruminant 127
Pharmacokinetics and residues of ciprofloxacin and its metabolites in broiler chickens 101
Pharmacokinetics in dogs after oral administration of two different forms of ascorbic acid 27
Plasma fibrinogen measurement in the horse: comparison of Millar's technique with a chronometric technique and the QBC-Vet Autoreader ^{TM} 213

QBC-Vet Autoreader TM, Plasma fibrinogen measurement in the horse: comparison of Millar's technique with a chronometric technique and the 213

Raspberry cordial in vitro, Antibacterial activity of 155
Rhamnose: a comparison between clinically normal cats and dogs and between dogs of different breeds, Intestinal permeability testing using lactulose and 45

Sequence analysis of feline caliciviruses isolated from the oral cavity of clinically normal domestic cats (*Felis catus*) in Florida (SC) 223
Small intestine morphology in weaned piglets fed a diet containing spray-dried porcine plasma 17
Specific enzyme activities in bronchoalveolar lavage fluid as an aid to diagnosis of tracheobronchitis and bronchopneumonia in dogs 141
Spray-dried porcine plasma, Small intestine morphology in weaned piglets fed a diet containing 17
Steroidogenesis by sheep granulosa cells, activin-A differentially regulates 23
Sustainability, feasibility and desirability of breeding livestock for disease resistance, The 1
Synovial fluid studies in navicular disease 201

Tracheobronchitis and bronchopneumonia in dogs, Specific enzyme activities in bronchoalveolar lavage fluid as an aid to diagnosis of 141

Urinary bladder smooth muscle function, Effects of bethanechol on canine 175

Vitamin A supplements on plasma levels of thyroid hormones, cholesterol, glucose and egg yolk cholesterol of laying hens, Effects of zinc and 135
Vitamin D3-containing diet on performance and serum biochemical characters of broiler chickens, Effects of boron supplementation of adequate and inadequate 183

Yeast (*Saccharomyces cerevisiae*), Biological suppression of aflatoxicosis in Japanese quail (*Coturnix coturnix japonica*) by dietary addition of 207

Zinc and vitamin A supplements on plasma levels of thyroid hormones, cholesterol, glucose and egg yolk cholesterol of laying hens, Effects of 135
